Attention All Patients:

Dear Patients:

We would like to (advise, explain, inform) you of the NON-BILLABLE portion of your office visit. The Non-Billable fee does not have anything to do with your insurance.

It is your responsibility to pay for an evaluation that goes beyond routine internal medicine or pediatric care. It is not reimbursable and not billed to your insurance company. If you have an HMO and would like my holistic evaluation, then you must sign below realizing that this fee is separate from the fee for the medical visit, which is billed to your insurance company.

Please understand this has nothing to do with your deductible, co-pay or twenty percent that is due towards your office visits. You are responsible for both the non-billable and office visit fee at time of service. If I participate with your medical insurance carrier, then you are responsible for the non-billable and your co-payments.

If you have any questions, please feel free to ask.

Please sign below indicating you fully understand these terms.

Respectfully,

Kevin D Holder, MD
