TREATMENT EXPLANATION

Dear Patient:

My practice is limited to Internal Medicine and Pediatrics. If you have decided that you would like to be treated with alternative methods (ie, homeopathy, herbs, acupuncture, etc.) then I must advise you that I cannot make claims as to the effectiveness or outcome of treatment for any specific condition.

I will be treating you as an individual and as a whole person, attempting to balance your system and thereby improve function. If you would like this form of treatment, I would appreciate your signature of approval below allowing such treatment with full realization that there is no guarantee of effectiveness for any specific medical illness or condition.

Respectfully,

Kevin D Holder, MD
